Return of Title IV Funds Policy

Students who receive financial assistance from Title IV programs (Federal Pell Grant, Campus-based Programs, Stafford loans, PLUS loans) and withdraw from School prior to completing more than 60% of the payment period are subject to the Return of Title IV Funds requirements of the U.S. Department of Education. The Return of Title IV Funds procedure is as follows:

1. Determine the percentage of the payment period the student completed. The total number of calendar days in the payment period does not include any days in which the student was on an approved leave of absence. In addition, the period does not include breaks of 5 or more days.
2. Determine the amount of aid earned by the student. The amount of aid the student earned for the payment period is determined by multiplying the percentage derived from Step 1 by the total amount of Title IV aid that was disbursed or that could have been disbursed as of the student's withdrawal date.
3. Compare the amount earned to the amount disbursed. If the student has a current balance of tuition and/or fees the School would receive the refund before the student. If less aid was disbursed than was earned, the student may receive a post withdrawal disbursement for the difference. If more aid was disbursed than was earned, the difference is refunded back to Title IV programs.
4. Allocate responsibility for returning unearned aid between the School and the student. Students who receive living expenses would be responsible for repayment of any unearned aid. If the student's share of the unearned funds that must be returned are attributed to a Title IV Loan program, then repayment will still be based under the terms and conditions of the promissory note. If the student's share of the unearned funds that must be returned are attributed to a Title IV Grant program, the initial amount to return will be reduced by 50%.
5. Distribute the unearned aid back to the Title IV programs.
6. If a post withdrawal disbursement is due (Box J of the Return to Title IV calculation) the School will notify the student, or parent in case of a PLUS loan, within 30 days. The student or parent will have 14 days to either accept the disbursement in full or a partial portion of the funds. If the student or parent does not respond to the notice in a timely manner, Title IV funds will be returned to the appropriate program. If authorization is received from the student or parent, funds will be disbursed within 120 days.

If grant funds are in the post-withdrawal disbursement, the School will retain the funds without the student's permission for current tuition and fees. If no current tuition and fees are due, the School will send the student the post withdrawal disbursement of grant funds. If the student has other outstanding charges, the School will notify the student of the charges before sending the student any grant funds. Any excess Grant funds will be disbursed to the student within 45 days.

If loan funds are in the post-withdrawal disbursement the School will notify the student, or parent in case of a PLUS loan, of the amount of current tuition and fees and/or outstanding charges due the School and the amount, if any that can be returned to the student or parent. A post withdrawal disbursement of loan funds will not be released to the student or parent unless they authorize current tuition and fees be paid first. If the student or parent declines the loan funds, no loan funds will be applied to current tuition and fees.

Grading System and Progress Policy

Because of the individual nature of instruction, it is possible for the instructor to frequently evaluate student progress. This permits students to obtain additional instruction or help before a problem becomes habitual. Progress will be evaluated against specific performance objectives, and students will receive one of the following grades.

Record Keeping Policies & Regulations

Records are maintained which show the academic progress and the attendance of a student. These records indicate the student's grades, presence, absence, or tardiness for each scheduled class period. These

records are maintained in such a manner as to make the student's information readily available to students and anyone authorized to inspect such records.

Grade	Interpretation	Numerical Value	Grade Point Avg.
A	Excellent	90 -100	4.0
B	Good	80 - 89	3.0
C	Fair	70 - 90	2.0
D	<i>Poor</i>	60 - 69	1.0
F	Failure	Below 60	0
I	Incomplete		0
W	Withdrawal		0

If the grade of “0” or “F” is received, the student will be counseled regarding deficient performance and may be placed on probation. A grade of incomplete must be made up within two (2) weeks after the last day of class or it will become an “F”. The above standard grading score will be used.

Satisfactory Academic Progress

Barbers Trade School's Satisfactory Academic Progress (SAP) policy is based on federal regulation and applies to all enrolled students. The policy includes metric components, applicable definitions, and details regarding appeal.

1. A student is in good standing if a cumulative Grade Point Average (GPA) of 2.0 (70%) or better is maintained, attendance is in accordance with School policy, and at least 66.67% of the attempted credit hours are completed (Pace Of Progression [POP]). Progress is documented by Progress Reports. See Student Evaluation for the details regarding Progress Reports.

2. A student who does not meet one or more of the three (3) metrics listed above will be placed on academic/financial aid warning for the next payment period. Students on academic/financial aid warning will continue to receive Title IV funds for the duration of the period.

To maintain eligibility after one payment period and return to good standing, a student must satisfy the minimum standards of all three SAP components by the end of the academic/financial aid warning period.

3. If a student fails to achieve the SAP requirements by the end of the warning period, they are placed on academic/ financial aid probation and will lose eligibility for Title IV funds but can appeal and re-establish program eligibility and continue matriculation.

4. A student that successfully appeals will re-establish Title IV eligibility and will be placed on academic/financial aid probation for the subsequent payment period. A student who is placed on academic/financial aid probation, for any reason, shall have 4 weeks (day students) or 8 weeks (night students) in which to rectify deficiencies and return to good standing.

5. When a student is placed on academic/ financial aid probation, that student will be advised prior to returning to class, of the beginning date and the action taken. The terms of the probation shall be clearly indicated on the appropriate permanent records.
6. A student placed on academic/financial aid probation may attend supplementary tutoring during probation, if necessary (see Individualized Assistance).
7. A student who fails to achieve overall SAP at the end of the probation period will be terminated. A student may appeal the School's termination in writing.
8. A student whose enrollment was terminated for unsatisfactory progress may re-enroll after a minimum of one grading period. This does not circumvent the approved refund policy.
9. A student who returns after the enrollment was terminated for not maintaining SAP shall be placed on probation for the next grading period. The student shall be advised of this action and the student's file will be documented accordingly. If the student does not maintain SAP at the end of this probationary period, the student shall be terminated.
10. A student must complete the program within 1.5 times the length of the program to meet minimum requirements specified by the Maximum Time Frame (MTF).
11. The School calculates the pace at which the student is progressing by dividing the cumulative number of hours the student has successfully completed by the cumulative number of hours the student has attempted.

Academic/Financial Aid Probation Appeals

To appeal academic/financial aid probation, a student must prepare a written statement explaining

- the factors that prevented the student from meeting SAP accompanied by supportive documentation.
- what has changed that will allow the student to maintain SAP.
- how the student will maintain SAP.

Appeals to establish academic/financial aid probation must be submitted within one week of the student being notified of failure to meet the terms of the academic/financial aid warning.

Additionally, a transcript of grades for all completed work will be available to each student upon request. Progress reports/records are posted to the permanent master files or transcripts following the completion of a course.

Re-admission/Appeals

When a student has extraordinary circumstances, an appeal may be submitted in writing to the Director. These circumstances will be considered in deciding on satisfactory progress. The student's written appeal must document the circumstances and reason(s) the appeal should be considered. The Director will consider each case on its own individual merit and a decision shall be placed in the student's file.

These standards of satisfactory progress are designed to give all students a reasonable opportunity to progress and obtain their educational objectives. In order for a student to be considered to be making satisfactory progress, he/she must meet the attendance.

Reinstatement Procedure

Regardless of the reason the withdrawal or dismissal of a student, the student may be reinstated only if a committee made up of the School Director, Financial Aid Administration, and (1) Instructor decides that the student has resolved whatever problem he or she may have had. The student will be required to pay a re-enrollment fee of \$100.00.

A student whose enrollment was terminated for unsatisfactory progress may be re-enrolled after a minimum of one grading period. No student can re-enter before the start of the next grading period. A grading period is 30 days or one month.

Grading Requirements

For a student to receive a certificate or diploma, the students must complete the prescribed number of hours in the course in which they are enrolled and maintain a "C" average in their training. Students who complete all other requirements of training but do not meet all the requirements for graduation, including full payments for course cost will not be awarded a diploma or certificate.

The graduate student who meets all requirements will be awarded a certificate which bears the graduate's name, course of study, date, director's name, and the seal of the school. Grades and absences will be assessed in determining whether attendance requirements have been met for graduation.

Grievance/Complaint Policy

Student concerns or complaints should first be brought to the attention of the instructor. Complaints that are not satisfactorily resolved at this level should be submitted in writing (ask for a "Student Complaint Form") to the school Director. Written responses will be given within five (5) working days. Students may also contact the Texas Department of Licensing & Regulation.
